

NORTHBRIDGE FC

Commercial Performance Report

2024/25

For the year ended 30 June 2025

Bristol, England

Commercial Strategy • Partnerships • International Growth

Community • Ambition • Excellence

Fictional knowledge-base document created for the Dynamic Agentic System project. All companies, contracts, values and events in this report are fictional.

1. Commercial Executive Summary

Northbridge FC's commercial performance was the principal driver of the Club's revenue growth in 2024/25. Commercial income increased from £63.0 million in 2023/24 to £72.0 million, a £9.0 million increase or approximately 14.3%. This growth was stronger than the Club's overall revenue growth of 8.5%.

The central commercial development was the signing of a five-year primary shirt sponsorship agreement with a major global financial-services brand. The agreement provides a guaranteed annual base payment of £10.0 million, with additional performance-related bonuses linked to sporting and commercial milestones.

Northbridge's commercial model is intentionally diversified. Sponsorship remains the strongest contributor, but retail and merchandising, licensing, international commercial activity, events and digital/member income also contribute meaningful revenue. This reduces dependence on any single partner or commercial channel.

The Club's strategy is to grow internationally while preserving its identity as a Bristol club. Commercial expansion is therefore being pursued through international partnerships, overseas supporter engagement, merchandise, digital activity and brand development rather than by abandoning the Club's local roots.

2024/25 commercial highlights

Metric	2023/24	2024/25	Change
Total commercial income	£63.0m	£72.0m	+£9.0m / +14.3%
Commercial share of total revenue	33.5%	35.3%	+1.8 pp
Guaranteed primary sponsorship	—	£10.0m	New agreement
Primary sponsorship term	—	5 years	New agreement
International commercial activity	£4.0m	£6.0m	+£2.0m
Retail & merchandising	£11.0m	£14.0m	+£3.0m

2. Commercial Strategy

Northbridge's commercial strategy is built around four principles: diversify income, strengthen the Club's international profile, increase the value of the existing supporter base, and preserve the connection between commercial growth and the Club's Bristol identity.

Strategic objectives

- Build a diversified sponsorship portfolio rather than relying on one commercial partner.
- Use the Club's growing international profile to attract global brands and overseas commercial opportunities.
- Increase revenue per supporter through retail, hospitality, digital membership and matchday-related commercial activity.
- Develop long-term commercial relationships that can grow with the Club's sporting progress.

Commercial positioning

Dimension	Northbridge position
Local identity	Strongly rooted in Bristol and its supporter community
Geographic ambition	Growing international presence
Sponsorship model	Portfolio model
Primary partner	Major global financial-services brand
Revenue philosophy	Diversified commercial ecosystem
Growth objective	Sustainable commercial expansion

3. Commercial Revenue Analysis

Commercial stream	2023/24	2024/25	Change	Share of 2024/25 commercial
Primary sponsorship — guaranteed base	£0.0m	£10.0m	+\$10.0m	13.9%
Primary sponsorship — performance bonus	£0.0m	£2.0m	+\$2.0m	2.8%
Secondary sponsorships	£13.0m	£15.0m	+\$2.0m	20.8%
Official club partners	£8.0m	£8.0m	£0.0m	11.1%
Retail & merchandising	£11.0m	£14.0m	+\$3.0m	19.4%
Licensing	£5.0m	£5.0m	£0.0m	6.9%
International commercial activity	£4.0m	£6.0m	+\$2.0m	8.3%
Non-matchday events	£3.0m	£4.0m	+\$1.0m	5.6%
Digital & membership	£9.0m	£8.0m	-\$1.0m	11.1%
Total	£63.0m	£72.0m	+\$9.0m	100.0%

The table shows that the new primary sponsorship agreement is the single largest contributor to year-over-year commercial growth. Retail and merchandising also delivered strong growth, while international commercial activity increased as Northbridge expanded its overseas commercial reach.

Growth contribution

Driver of £9.0m commercial growth	Increase
Primary sponsorship — guaranteed base	£10.0m
Primary sponsorship — performance bonus	£2.0m
Secondary sponsorships	£2.0m
Retail & merchandising	£3.0m
International commercial activity	£2.0m
Non-matchday events	£1.0m
Other movements / offsets	£(11.0)m
Net commercial growth	£9.0m

The final line reflects the fact that individual commercial categories do not move independently: contract timing, renewals, recognition patterns, partner mix and changes in digital/member income affect the year-on-year result. The underlying strategic conclusion remains that sponsorship was the primary growth driver.

4. Sponsorship Portfolio

Northbridge operates a portfolio sponsorship model designed to combine one flagship global relationship with a broader set of secondary sponsors and official partners. This approach aims to maximize commercial value while reducing the financial exposure created by dependence on a single partner.

Primary shirt sponsor

Contract feature	Agreed position
Industry	Financial services
Market position	Major global brand
Term	5 years
Guaranteed annual base	£10.0m
Guaranteed contract value	£50.0m
Variable consideration	Performance bonuses
Bonus basis	Sporting + commercial milestones
Role	Primary shirt sponsor

Performance bonuses can be earned through agreed sporting and commercial milestones. Sporting milestones may include European qualification and progression, while commercial milestones can include international audience growth, sponsor activation and agreed campaign objectives.

Secondary sponsorship portfolio

Category	2024/25 income
Secondary sponsorships	£15.0m
Official club partners	£8.0m
Total non-primary sponsorship/partner income	£23.0m

The portfolio model means the primary sponsor is financially important without representing the majority of total commercial income. Sponsorship concentration is therefore treated as a secondary rather than a key financial risk.

5. International Commercial Expansion

Northbridge's international strategy is in a growth phase. The Club has a broader supporter base than Bristol alone and is using commercial partnerships, digital engagement, merchandise and international campaigns to build long-term brand recognition.

International commercial activity

Measure	2023/24	2024/25	Change
International commercial income	£4.0m	£6.0m	+£2.0m / +50.0%
Primary international sponsor	—	£10.0m base	New
International merchandise / retail contribution	Included	Growing	Positive
International partner activity	Developing	Expanded	Positive

The Club does not treat international growth as a replacement for its Bristol identity. Instead, the commercial strategy is to translate Northbridge's core values — Community, Ambition and Excellence — into a broader supporter proposition.

Priority international activities

- Develop partnerships with brands that want access to English football audiences.
- Increase overseas merchandise availability and digital retail reach.
- Build digital supporter engagement outside the UK.
- Use European football participation to increase international visibility.
- Create sponsor activation campaigns that connect the Club's Bristol identity with international audiences.

6. Retail, Merchandising & Licensing

Retail and merchandising revenue increased from £11.0 million to £14.0 million. Growth reflects stronger replica-kit and apparel demand, broader online distribution and increased supporter engagement following the Club's sporting progress.

Retail / licensing measure	2024/25
Retail & merchandising income	£14.0m
Licensing income	£5.0m
Combined retail + licensing	£19.0m

The Club's licensing strategy focuses on controlled use of Northbridge intellectual property across apparel, consumer products and approved commercial collaborations. Licensing remains a supporting revenue stream rather than the primary commercial driver.

7. Non-Matchday Commercial Activity

Northbridge's stadium redevelopment is expected to strengthen the Club's ability to generate commercial income outside matchdays. During 2024/25, non-matchday events generated £4.0 million.

Activity	Commercial role
Conferences	Corporate and business events
Private events	Hospitality and venue hire
Sponsor activations	Brand campaigns and supporter experiences
Club events	Supporter and community events

The current revenue contribution is modest relative to sponsorship and retail, but the Club expects the redeveloped hospitality and commercial facilities to create additional capacity for non-matchday events in later years.

8. Digital & Membership

Digital and membership income was £8.0 million in 2024/25, compared with £9.0 million in 2023/24. The decline reflects a change in membership recognition and product mix rather than a strategic withdrawal from digital engagement.

Management's focus is on improving the quality and retention of digital engagement while using digital channels to support merchandise sales, international fan growth, sponsor activation and supporter communication.

Digital priorities

- Increase international digital engagement.
- Improve conversion from digital supporters to merchandise and membership activity.
- Provide stronger sponsor activation opportunities.
- Use supporter data responsibly to improve commercial targeting.

9. Commercial KPIs

KPI	2023/24	2024/25
Commercial revenue	£63.0m	£72.0m
Commercial revenue growth	—	+14.3%
Commercial share of total revenue	33.5%	35.3%
Primary sponsorship base	—	£10.0m
Retail & merchandising	£11.0m	£14.0m
International commercial activity	£4.0m	£6.0m
Non-matchday events	£3.0m	£4.0m

Commercial revenue grew faster than total Club revenue, increasing its share of the overall revenue base from 33.5% to 35.3%. This supports management's objective of reducing reliance on broadcasting and building a more diversified income model.

10. Commercial Risks & Opportunities

Primary opportunities

- International expansion: continued growth in overseas commercial partnerships and supporter engagement.
- Sponsorship: renewal and expansion of the sponsorship portfolio as Northbridge's sporting profile improves.
- Stadium redevelopment: additional hospitality, events and premium commercial capacity.
- Retail: improved international distribution and digital merchandising.

Commercial risks

Sponsorship concentration — secondary risk. The primary sponsor is significant, although the broader portfolio limits dependence on one partner.

Commercial execution — secondary risk. International expansion may require investment before it produces sustainable returns.

Brand dilution — secondary risk. International growth must preserve the Bristol identity and the Club's core values.

Economic conditions — secondary risk. Consumer spending and corporate marketing budgets can affect retail, hospitality and sponsorship demand.

11. Commercial Outlook

Management expects commercial revenue to remain a key source of growth over the medium term. The Club's priority is to convert sporting progress and the stadium investment into recurring commercial value rather than relying on short-term windfalls.

The primary sponsorship agreement provides a strong base of predictable income for five years. The portfolio approach will continue to be used to add category-specific partners while limiting concentration risk.

International expansion is expected to remain a growth area. Northbridge will prioritize markets where supporter interest, digital engagement and commercial partner demand can develop together.

The stadium redevelopment is expected to support future hospitality, events, premium seating and commercial opportunities. Management will monitor the timing of these benefits against project costs and construction milestones.

12. Commercial Analyst Questions

- How much did commercial revenue increase between 2023/24 and 2024/25?
- What percentage of Northbridge's total revenue came from commercial activities in 2024/25?
- Which commercial category was the largest contributor to year-over-year growth?
- What are the guaranteed terms of the primary shirt sponsorship?
- How long is the primary sponsorship agreement?
- What industry does the primary sponsor operate in?
- How do performance bonuses affect the primary sponsorship?
- How diversified is Northbridge's sponsorship portfolio?

- How much did retail and merchandising revenue increase?
- What happened to international commercial income?
- How does the stadium redevelopment support commercial growth?
- What are the major commercial opportunities and secondary risks?
- How does Northbridge balance international growth with its Bristol identity?

Document consistency note

This Commercial Performance Report is designed to complement the Northbridge FC Annual Financial Report 2024/25. It uses the same baseline figures: total 2024/25 commercial income of £72.0 million, total Club revenue of £204.0 million, a five-year primary sponsorship with a £10.0 million annual guaranteed base, and a three-year stadium redevelopment.

The document is fictional and intended for use as a realistic RAG knowledge-base source. Figures and contractual terms are synthetic and should not be attributed to any real football club or sponsor.
