

NORTHBRIDGE FC

Contracts & Commercial Agreements Register 2024/25

For the year ended 30 June 2025

Bristol, England

Commercial Contracts • Rights • Obligations • Legal Controls

Community • Ambition • Excellence

Fictional internal knowledge-base document created for the Dynamic Agentic System project. All parties, contract values, dates and obligations are fictional.

1. Executive Summary

Northbridge FC maintains a central contract-management framework covering sponsorships, commercial partnerships, stadium and infrastructure agreements, retail and licensing arrangements, professional services and other material commercial commitments.

The Legal & Compliance function is responsible for legal review, contract risk assessment and oversight of material obligations. Commercial and operational teams remain responsible for day-to-day performance, while the legal function maintains the contractual record and escalation process.

The most commercially significant agreement during 2024/25 was the Club's five-year primary shirt sponsorship with a fictional major global financial-services company. The agreement provides a guaranteed annual base payment of £10.0 million, with additional performance-related bonuses.

The stadium redevelopment also created a substantial contract environment covering construction, professional advisers, financing and operational continuity. These agreements are managed separately from the Club's recurring commercial partnerships because their risk profile and obligations are materially different.

Contract portfolio overview

Contract category	2024/25 position	Legal status
Primary sponsorship	5-year / £10m annual base	Active / monitored
Secondary sponsorships	£15m aggregate income	Active / monitored
Official partners	£8m aggregate income	Active / monitored
Retail & licensing	£19m combined income	Active / monitored
Stadium redevelopment	3-year project	Active / monitored
Professional services	Multiple suppliers	Active / monitored
Material disputes	None reported	No material unresolved matter

2. Principal Contract Register

The following register is an internal management summary. It is not a substitute for the executed agreement, side letters, schedules or legal advice applicable to an individual matter.

ID	Agreement	Counterparty type	Term / value	Status
COM-001	Primary Shirt Sponsorship	Global financial-services company	5 years / £10m base p.a.	Active
COM-002	Secondary Sponsorship Portfolio	Multiple corporate partners	Annual / £15m aggregate	Active
COM-003	Official Partner Portfolio	Multiple partners	Annual / £8m aggregate	Active
COM-004	Retail & Licensing Framework	Retail/license partners	Ongoing / £19m combined	Active
COM-005	International Commercial Partnerships	Overseas partners	Various / £6m activity	Active
INF-001	Stadium Main Works Package	Construction contractor	3-year project	Active
INF-002	Stadium Professional Services	Advisers / consultants	Project term	Active
FIN-001	Stadium Project Financing	Financial institution	Project-linked	Active

ID	Agreement	Counterparty type	Term / value	Status
OPS-001	Venue & Event Services	Service providers	Various	Active

3. Primary Shirt Sponsorship Agreement — COM-001

The primary sponsorship agreement is the most significant commercial contract in Northbridge's 2024/25 commercial portfolio. It is structured to provide predictable base income while allowing additional consideration for sporting and commercial performance.

Contract feature	Agreed position
Sector	Financial services
Counterparty profile	Major global brand
Term	5 years
Guaranteed annual base	£10.0m
Guaranteed value over term	£50.0m
Variable consideration	Performance bonuses
Bonus basis	Sporting + commercial milestones
Primary rights	Shirt branding and agreed commercial rights
Contract management owner	Commercial Partnerships
Legal oversight	Legal & Compliance

Key contractual obligations

- Northbridge must provide the contracted branding, inventory and activation rights.
- The sponsor must make guaranteed payments in accordance with the agreed schedule.
- Both parties must comply with applicable law and relevant football regulations.
- Brand usage must follow agreed intellectual-property and approval procedures.
- Performance bonuses are subject to the contractual definition and verification of qualifying milestones.
- Material breach, insolvency, reputational events and other specified triggers may activate contractual remedies.

Commercial protections

Provision	Purpose
Category exclusivity	Protect sponsor rights within agreed financial-services categories
Brand guidelines	Control use of Northbridge and sponsor marks
Approval rights	Coordinate campaigns and activations
Payment schedule	Support predictable cash collection
Performance verification	Prevent disputes over bonus eligibility

Provision	Purpose
Termination rights	Provide remedies for defined material events
Confidentiality	Protect commercial and strategic information
Dispute resolution	Provide agreed escalation mechanism

4. Secondary Sponsorship & Partner Agreements

Northbridge's commercial strategy uses a portfolio approach. Secondary sponsors and official partners reduce reliance on the primary shirt sponsor and provide category-specific commercial relationships.

Portfolio	2024/25 income	Legal management focus
Secondary sponsorships	£15.0m	Rights, exclusivity, activation
Official partners	£8.0m	Services, branding, deliverables
International commercial activity	£6.0m	Territory and rights control
Non-matchday events	£4.0m	Venue terms, liability, insurance

Each agreement is assessed for conflicts with existing sponsorship categories. Legal review focuses particularly on exclusivity, territorial rights, intellectual-property permissions, termination provisions and obligations that continue after expiry.

5. Retail & Licensing Agreements

Retail and licensing arrangements support the Club's merchandise and intellectual-property strategy. Combined retail and licensing income was £19.0 million in 2024/25.

Contract area	Primary legal issues
Replica kit / apparel	Trademark use, quality, territory and distribution
Licensed products	Approval, royalties and brand standards
Online retail	Consumer terms, data protection and fulfilment
International distribution	Territory, tax and local compliance
Intellectual property	Ownership, licence scope and permitted use

Licensing arrangements must clearly distinguish ownership of Northbridge intellectual property from the rights granted to counterparties. Material agreements include approval processes for product quality and brand presentation.

6. Stadium Redevelopment Contracts

The three-year stadium redevelopment creates a separate contract ecosystem. The Club's 2024/25 capital expenditure was £32.0 million, funded partly through £25.0 million of external project financing and £7.0 million of Club cash.

Contract stream	Principal legal concern
Main works contract	Scope, milestones, price, variations and defects
Professional advisers	Scope, liability, deliverables and fees
Specialist contractors	Technical performance and warranties
Financing documentation	Covenants, security, repayment and events of default
Insurance	Construction risks, liability and required coverage
Venue operations	Safe access and continuity during construction

Contract controls

- No material variation without appropriate approval.
- Track notices and contractual deadlines centrally.
- Confirm insurance and bonding requirements before relevant work begins.
- Maintain evidence of contractor performance and acceptance.
- Escalate delays, defects and disputes promptly.

7. Contract Lifecycle Management

Stage	Required control
Request	Business owner defines commercial need
Due diligence	Counterparty and risk checks
Drafting	Legal review of material terms
Approval	Authority and budget approval
Signature	Authorized execution and record creation
Performance	Business owner tracks obligations
Renewal / expiry	Advance notice and commercial decision
Close-out	Archive, termination and continuing obligations

Contract management is designed to prevent a common legal failure: a contract being legally reviewed at signing but then forgotten during its operational life. Material agreements therefore have owners, dates, obligations and escalation points.

8. Key Contractual Obligations Register

Obligation type	Examples	Owner
Payment	Invoices, sponsorship receipts, supplier payments	Finance / Commercial
Deliverables	Branding, hospitality, events, construction milestones	Business owner
Reporting	Performance, usage and compliance reports	Business owner
Approvals	Campaigns, branding, variations	Commercial / Legal
Insurance	Required construction and operational coverage	Risk / Projects
Confidentiality	Commercial and strategic information	All relevant teams
Renewal notices	Notice periods and option dates	Legal / Contract owner

9. Breach, Termination & Dispute Management

Northbridge's standard commercial approach is to resolve performance issues early while preserving contractual rights. The legal team becomes directly involved when a material breach, termination right, significant financial exposure or reputational issue arises.

Stage	Action
Issue identified	Business owner records facts and impact
Initial assessment	Legal determines contractual position
Notice	Formal notice issued where required
Remediation	Counterparty given agreed opportunity to cure
Escalation	Senior management / Board involvement where material
Resolution	Settlement, performance cure or termination
Post-resolution	Record outcome and update risk register

No material unresolved commercial litigation is recorded for the 2024/25 fictional reporting period. Routine contractual questions and performance matters remain subject to ordinary contract management.

10. Regulatory & Contractual Compliance

Commercial contracts are not reviewed in isolation from football regulation. Northbridge checks applicable football rules, advertising requirements, data-protection obligations, anti-bribery controls and other relevant legal requirements before material agreements are finalized.

The FA's 2024/25 rules state that clubs and players must not enter agreements that contravene FA rules, including applicable Football Agent Regulations and Third Party Interest rules. [\[cite\turn0search24\]](#)

For player and agent-related contracts, the FA Football Agent Regulations introduced from 1 January 2024 apply alongside the FIFA Football Agent Regulations, with the applicable framework depending on the transaction. [\[cite\turn0search25\]](#)

The legal team also checks whether a commercial relationship creates an associated-party or related-party issue under the football competition's applicable financial and commercial rules. This is particularly relevant where ownership or connected-party relationships exist.

11. Contract Risk Register

Risk	Level	Control
Missed renewal / notice deadline	Key	Central obligation calendar
Counterparty non-performance	Key	Performance monitoring and remedies
Sponsorship rights conflict	Key	Category and exclusivity register
Stadium delay / variation dispute	Key	Project contract governance
Payment default	Secondary	Credit checks and payment monitoring
IP misuse	Secondary	Brand approval and licence controls
Regulatory non-compliance	Key	Legal review and compliance checklist
Confidentiality breach	Secondary	Contractual confidentiality and access controls

12. Contract Management Outlook

The volume and complexity of Northbridge's commercial contracts are expected to increase as the Club expands internationally, develops the stadium and grows its commercial partnership portfolio.

- Centralize material contract records and renewal dates.
- Increase visibility of contractual obligations across business teams.
- Strengthen counterparty and connected-party due diligence.
- Use consistent approval thresholds for material commercial commitments.
- Monitor sponsorship exclusivity as the portfolio expands.
- Integrate contract data with financial forecasting and risk management.

13. Legal Analyst Questions

- What are the principal commercial agreements in Northbridge's 2024/25 contract register?
- What are the financial and legal terms of the primary shirt sponsorship?
- What contractual protections exist for sponsorship exclusivity?
- How does Northbridge manage performance bonuses under the sponsorship agreement?
- How are secondary sponsorships and official partners managed?
- What legal issues arise from retail and licensing agreements?
- What contracts are associated with the stadium redevelopment?
- How are material contract variations controlled?
- What is Northbridge's contract lifecycle process?
- How are renewal and termination deadlines managed?
- What happens when a counterparty breaches a material agreement?
- How does football regulation interact with commercial contracts?
- What are the principal contractual risks for Northbridge?

Cross-document consistency

This register complements the Northbridge FC Annual Financial Report, Commercial Performance Report, Transfer & Wage Report, Stadium & Infrastructure Investment Report and Legal & Regulatory Compliance Report. Shared baseline facts include the £10.0m annual primary sponsorship base, five-year term, £72.0m commercial income, £32.0m stadium capital expenditure and £25.0m stadium project financing.

The document is fictional and intended for RAG testing. Contract identifiers, counterparties, values, obligations and statuses are synthetic and should not be attributed to real clubs or companies.
